CAREER OBJECTIVE

I am a senior majoring in computer science with experience in full stack development and knowledge of the software development life cycle. Looking for a role where I can grow and learn from experienced team members while drawing on project experience I have already successfully executed.

EDUCATION

Kennesaw State University, School of Engineering and Applied Science

January 2021 - Present

Bachelor in Computer Science (CS).

Expected May 2022

- Cumulative GPA: **3.7/4.0**

PROJECTS AND LEADERSHIP

Hotel Management System

- Building responsive application using Python, Flask, HTML/CSS, MySQL database that will allow users to efficiently manage clients, staff, inventory, pricing, and data in real time.
- Collaborated with one friend and experienced developer to brainstorm and implement ideas and feedback into application's development.

Computer Science Club

April 2019 – April 2020

- Co-founded the computer Science club at Kennesaw university to encourage exchanges among CS students especially woman, surrounding information technology.
- Encouraged club members to spend 2 hours a week pair programming with another member to share learnings.
- We succeeded to attract 18 active members to the club that year.

SKILLS

- **Programming Languages:** Python, R, Java, C, JavaScript, HTML/CS.
- **Databases:** MSQl, PostgreSQL, Redis.
- **Development:** Flask, Django.
- **Cloud:** GCP, AWS.
- **CI/CD:** Git, Docker, Jenkins.
- **Programming Tools:** Visual Studio, PyCharm.
- **Language Proficiency:** English, French.

WORK EXPERIENCE

Learning Assistant

Kennesaw State University

July 2021 – present

- Assist and collaborate with the professors in various task like preparing lessons, grading assignments and answering students' questions.
- Help students individually or in group to better understand important part of the lesson especially algorithms and data structure.
- Test performance of students went from 68% to 88% at the end of our summer bridge program.

Software Development Intern

Afriland First Bank

July 2019 – September 2019

- Developed, tested and deployed scalable and maintainable code for our core banking system
- Contributed to the planning, software design and software architecture
- Collaborated with other engineer within the teams and other member in creating secure and reliable software solution.
- Researched, investigated, fixed and documented a wide range of technical issues.
- Proactively learned about new technology.

ACTIVITIES

Holder of CCN A R&S Certificate
