- Relevant Coursework: Problem Solving I/II, Data Structure and Algorithms, Introduction to Databases, Calculus.

PKFokam Institute of Excellence   August 2017 - Decembre 2020

SKILLS

- **Programming Languages:** Python, R, Java, C, JavaScript, HTML/CS.
- **Technologies and Software**: Linux, Web Development, PyCharm, Visual Studio, Git, APIs, Agile Development Process, SQL
- **Language Proficiency**: English, French.

PROJECTS

Hostel Management System
Creator
- Built responsive app using Python, Flask, HTML/CSS, MySQL database that allowed users to manage and control different task inside the company.
- Gathered user requirements, and built and maintained code for the tool, saving manager and employees 6 monthly hours in labor.
- Collaborated with one friend and the manager of the Hostel Manager to brainstorm and implement ideas and feedback into app's development.

Computer Science Club
Co-founder
April 2019 – April 2020
- Presented a need for a computer science club to students' assembly, obtained club approval and secured club advisor
- Co-founded the computer Science club at PKFokam Institute of Excellence to encourage exchanges among CS students surrounding new concepts and technical problems.
- Led club members to spend 2 hours a week pair programming with another member to share learnings.
- We succeeded to attract 25 active members to the club that year.

WORK EXPERIENCE

Learning Assistant (Kennesaw State University).   July 2021 – present
- Collaborate with more than three (03) instructors and other learning assistants to lead, assist, and help more than 25 students' problem in Precalculus and Algebra during class session.
- Test performance of students went from 68% to 88% at the end of our summer bridge program.

Software Development Intern – Afriland First Bank   July 2019 – September2019
- Collaborated two (02) Technical Support Engineer and Engineering team to deploy a new version of GLPI (at that time, the 3.9) which is an open open-source IT Asset Management, issue, tracking system and service desk system. we deployed the software on a Linux Distribution
- Manually put a lot of information (contracts information, physical equipment) inside the software for better management of all different tools inside the company.

ACTIVITIES

Holder of CCNA R&S Certificate
